PHP WordPress Developer

Description

We are a team of 70+ expert developers and designers who strive to make a difference on the web every day. At UnlimitedWP, our goal is to build web projects that offer beautiful experiences. We exclusively work with digital agencies around the world to offer dedicated WordPress support.

- We strongly believe in creativity in our work environment.
- We don't believe in the one-man army, you need to be a team player.
- Our environment demands you to constantly increase your personal WordPress knowledge and to grow your self as a developer.
- We go the extra mile for our clients and it is a must for you to do so too.

Responsibilities

- Coordinate with Local and Remote team/clients.
- Technical planning and estimation of new projects.
- Contributing to our internal development & DevOps processes to improve quality and efficiency.
- Lead the development of WordPress sites collaborating with both local and remote development teams.
- Be responsible for the health and maintainability of our codebase.
- Integrate a wide range of WordPress plugins, APIs, and third-party apps and forms.
- Develop, test, and troubleshoot across multiple browsers, platforms, and devices, including tablets and smartphones, to support the consistent and positive customer experience.
- Follow SEO best practices for site development.
- Research and recommend new technologies and tools for effective integration across various platforms.
- WordPress plugin customization.
